

Product Group: Vishay Dale Resistors /2-19-2016/ PCN-DR-003-2016 Rev. 0

Product Change Notification

Change in assembly site; form, fit, function for CPSM series

DESCRIPTION OF CHANGE: The manufacturing location is being changed from Juarez, Mexico to a subcontracted location in Asia, though the trim/form operation will still be performed in the Juarez, Mexico facility. Resistance values above 100 ohms will have a metal oxide resistive material in lieu of a wirewound resistive material (maximum resistance value for CPSM03 will be 100 ohms and for CPSM05 will be 33k ohms). E-24 decade values will be standard resistance values available, although others may be available upon request.

CLASSIFICATION OF CHANGE: Assembly Site, Form Fit Function

REASON FOR CHANGE: Due to space constraints and other ongoing business operations, some of the equipment required to build this product is being removed. Those parts of the operation being affected by this change will be subcontracted.

EXPECTED INFLUENCE ON QUALITY/RELIABILITY/PERFORMANCE: Performance will be similar aside from the differences noted in cross-reference file: <http://www.vishay.net/files/Cross-Reference%20Data%20-%20PCN-DR-003-2016%20Rev%200.pdf>.

PRODUCT CATEGORY: Resistors, Discrete

PART NUMBERS/SERIES/FAMILIES AFFECTED: CPSM series

VISHAY BRAND(s): Dale Resistor

TIME SCHEDULE:

Last Time Buy Date: March 22, 2016
Last Time Shipment Date: April 22, 2016

SAMPLE AVAILABILITY: Available with standard lead-time

PRODUCT IDENTIFICATION: NA

QUALIFICATION DATA: Available upon request.

This PCN is considered approved, without further notification, unless we receive specific customer concerns before March 22, 2016 or as specified by contract.
