FAX: +49 (0) 4821 89 89 80

Affected product: KOA's „Thinfilm technology resistors / sensors“ (RN73*, LT73* and CNN*)

Affected factory: KOA Corp. – Nishijama plant, East-Wing plant.

KOA part number: (RN73*, RN73H*, RN73S*, LT73*, LT73V* and CNN*)

Customer part number: Several (partlist upon request).

Description of change: **1) Consolidation of the production sites of Metal Film F/C resistors.**
2) Change of resist forming method for RN73 series
3) Addition of electrode plating production line

Reason for the change: 1) Securing production space in response to expanding orders of Metal Film F/C resistors. (all series)
Improvement of product and information transmission capability by unification of production bases in the first half process and second half process.

2+3) Securing production capacity against increased production demand. (only RN73*, RN73H* and RN73S* series)

Effective Date of the change: July 2019

Product identification: By Lot no.

Sample availability: November 2018

Quality and reliability: The electrical and mechanical performance will not be affected by this change
