

One step ahead in cooling!

PT HIGH SERIES PERFORMANCES (Examples)

1) PTHIGH (h=75 mm) from extruded baseplate RMRES0045

Materials:

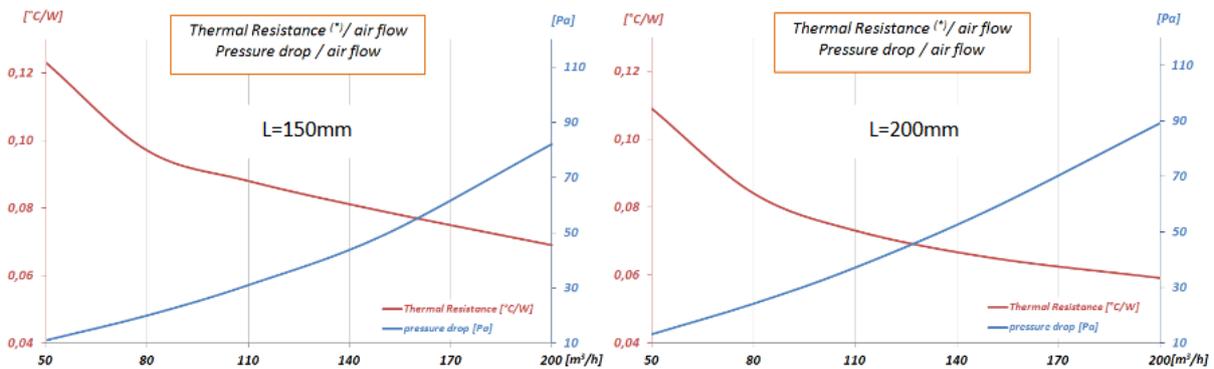

Fins: n° 18 ; thickness 1.5 mm; pitch =4.5 mm (Al EN AW1050)

Baseplate (+ n°3 extruded thicker fins) : Al Extruded alloy Al EN AW 6060

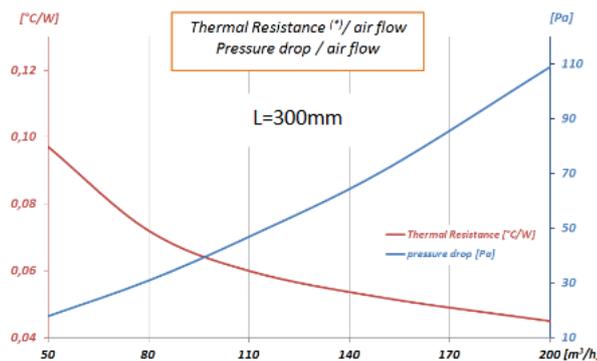

Working Conditions:

- T in = 40°C
- Pd = 300 W uniformly distributed
- fully ducted ventilation

(*) Thermal Resistance: max T_{HS} surface to T_{air IN} (@40°C)

Performances have been evaluated in function of different heat sink lengths "L" (see diagrams)

Wir freuen uns auf Ihre Anfragen!

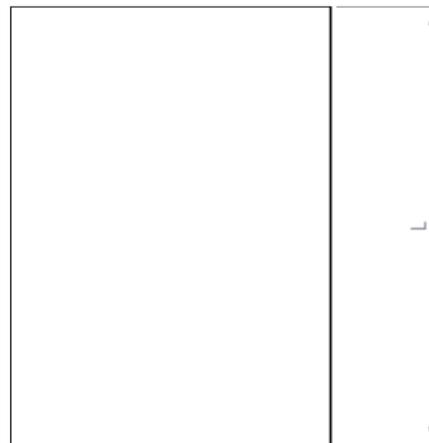

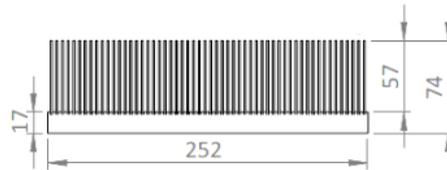

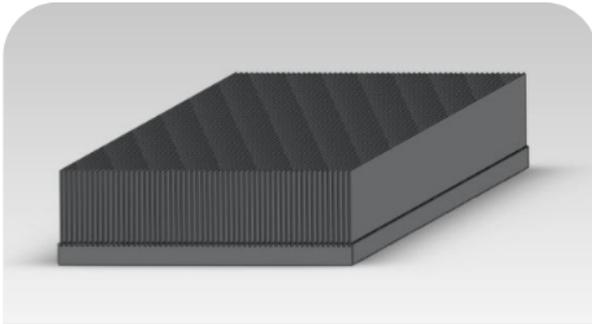

One step ahead in cooling!

PT HIGH SERIES PERFORMANCES (Examples)

2) PT HIGH (h=74 mm) from extruded baseplate RMRES0042

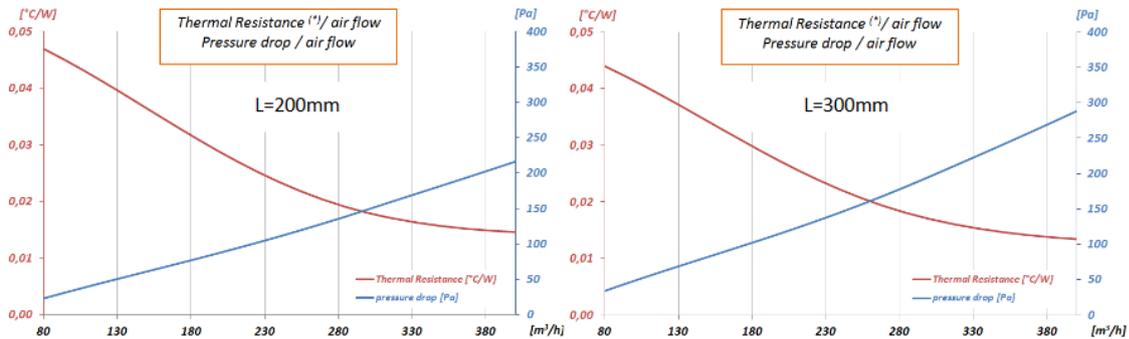

Materials:

Fins: n° 56 ; thickness 1.5 mm; pitch =4.5 mm (Al EN AW1050)
 Baseplate: Al Extruded alloy Al EN AW 6060

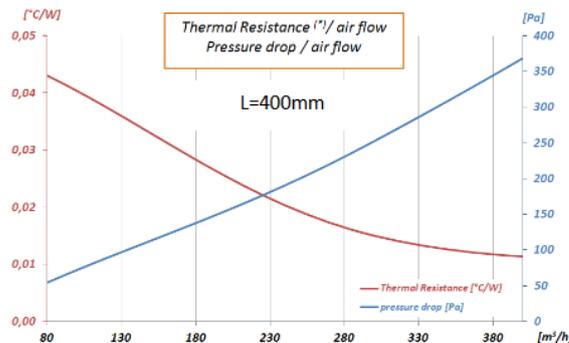

Working Conditions:

- T_{in} = 40°C
- Pd = 750 W uniformly distributed
- fully ducted ventilation

(* Thermal Resistance: max T_{HS} surface to T_{air IN} (@40°C)

Performances have been evaluated in function of different heat sink lengths "L" (see diagrams)

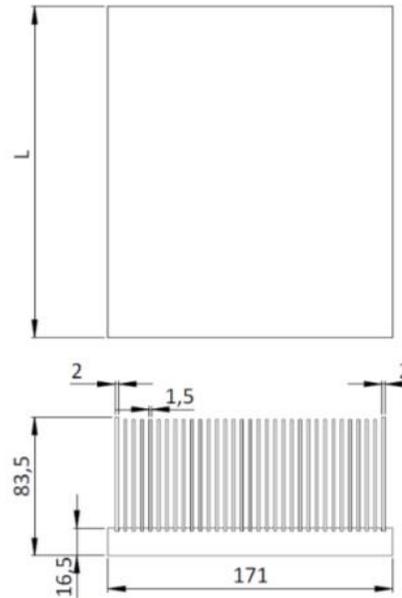

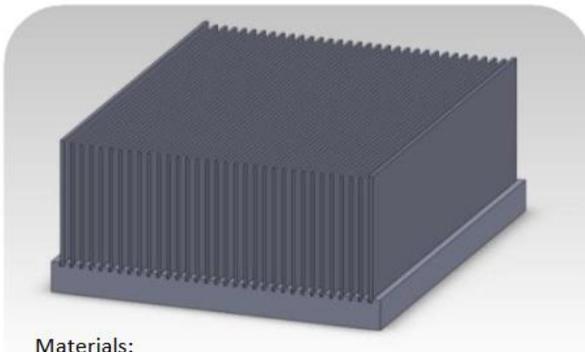

One step ahead in cooling!

PT HIGH SERIES PERFORMANCES (Examples)

3) PT HIGH (h=83.5 mm) from extruded baseplate RMRES0052

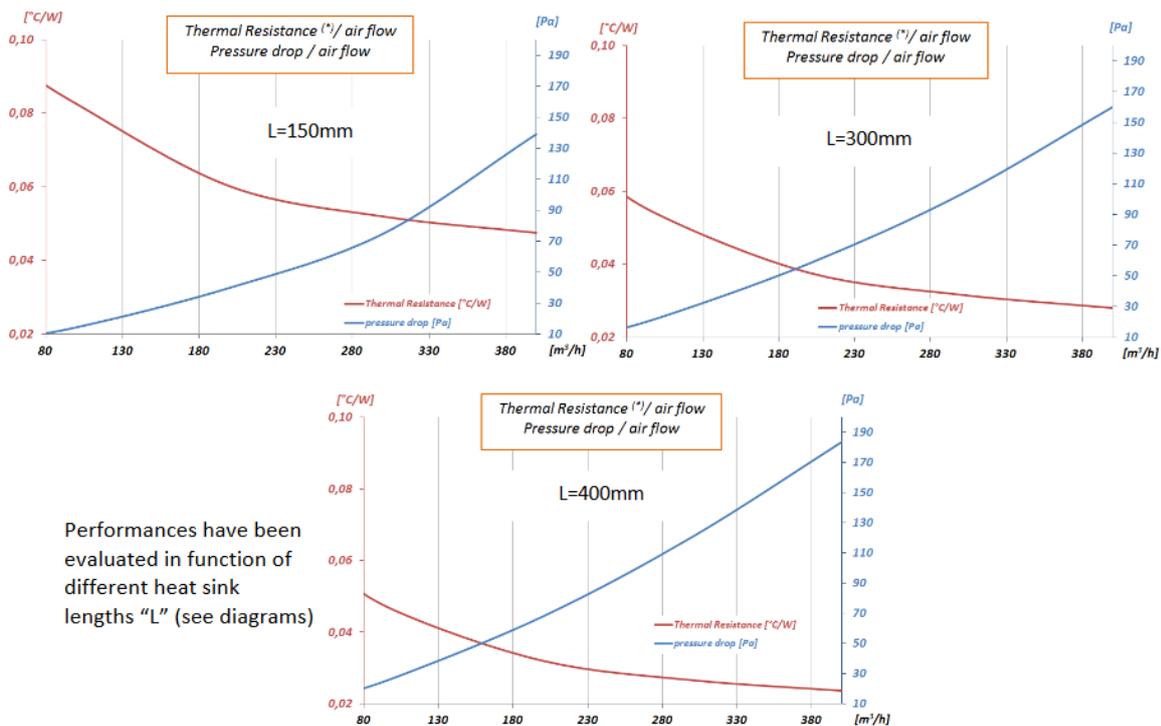

Materials:

Fins: n° 31 ; thickness 1.5 mm + n°2 ; thickness 2 mm ;
pitch =5 mm (Al EN AW1050)
Baseplate: Al Extruded alloy Al EN AW 6060

Working Conditions:

- T in = 40°C
- Pd = 500 W uniformly distributed
- fully ducted ventilation

(*) Thermal Resistance: max T_{HS} surface to T_{air IN} (@40°C)

One step ahead in cooling!

PT HIGH SERIES PERFORMANCES (Examples)

Flexible fins configuration
(e.g. different lengths) without
removing material

Complex machining (threaded
holes, millings, flat-milled surfaces)
by flatness up to 0.003/100 mm

Cover or double base

Surface finish: Anodizing (black or
colorless) and other treatments
